THE STREAMLINER

Everbearing. — Produces abundantly from June to November.

Hardy — Originated where temperatures fall to 20 and 30 degrees below zero.

Large Fruit — Equal in size to other large varieties.

Sweeter — Its very high degree of sweetness means a big saving in sugar, both for fresh use and canning.

Good Keeper — Because of its firmness, it is an excellent keeper. Will stand up on the market long after the other varieties have spoiled.

Color — The color is a bright, deep red, produces a minimum of small seed.

Aromatic. — A highly flavored and aromatic berry. Very Productive.

New ROBINSON

BEST LATE

The best medium to late—10 days to 2 weeks later than Premier. The largest berry we have ever seen — 30 berries will fill a quart. Has produced a wonderful crop of fruit every year under most unfavorable conditions.

Berries are extremely large, and honey - sweet. Color is decidedly a cardinal - red, and this berry may be offered under this name. Berries have a firm tough skin, making it an excellent shipper to distant markets. An excellent plant maker on most any kind of soil.

Premier and Robinson, two of the best varieties, will give you berries over the entire season.

PRICE: 25 for 95c; 50 for \$1.65; 100 for \$2.75; 250 for \$5.75; 500 for \$8.50; 1,000 for \$15.00. Postpaid

New ARROWHEAD

MINNESOTA'S NEWEST AND BEST

For the first time we are offering this new June bearing strawberry from the University of Minnesota Experiment Station. Plants are hardy, very vigorous growers and are highly productive. Because of the attractive large sized, firm, dark red, juicy, sweet berries, they are prized for market, freezing and jam. Be sure to include this new strawberry in your planting.

Price: 25 plants for \$1.25, 50 for \$2.00, 100 for \$3.25, 250 for \$6.50, 500 for \$10.00, 1,000 for \$17.50, prepaid.

SENATOR DUNLAP

The Dunlap is the Most Popular Strawberry in the United States, known everywhere. Fruit firm, of excellent quality, good size, and an unusually heavy bearer. Has wide range of soil and climate. Yields big profits; excellent for preserves and general uses. An old time favorite. No better canning berry is to be found anywhere. Prices postpaid.

25 Plants for 65c;
50 for \$1.00;
100 for \$1.50;

300 for 4.00;
500 for \$5.60;
1000 for \$10.00

THE BLAKEMORE

The plants are so vigorous that they will make a good fruiting bed in almost any kind of soil and with the minimum of care.

They are very productive—often producing as much as 10,000 quarts per acre, and the record of several years indicate that the blossoms are quite frost resistant. They have attractive color. The berries are really solid and are much liked for canning and preserving. Prices same as for DUNLAP.

PREMIER

EARLY. This ever-popular berry has stood the test of 25 years. Fruit large and holds its size well throughout the ripening season. Foliage smooth, bright and clean. A good plant maker. One of the most extensively planted early varieties of Strawberries at this time. There are but very few varieties that have equalled Premier's production record. In flavor and quality it ranks with the best. Recommended for home use, local sales or commercial markets.

PRICE—\$1.10 per 25;
\$1.80 per 50;
\$2.90 per 100;

\$5.80 per 250;
\$9.00 per 500;
\$14.50 per 1000.

Cumberland Blackcap

Raspberry

This is without question one of the most profitable and popular Black Raspberries ever grown. It is one safe and reliable commercial variety you can depend upon for a big crop regularly. It succeeds in all soils and produces its big crop year after year. More Cumberland are planted than any other variety. Cumberland is perfectly hardy and tremendously productive.

Sodus

The leading purple Raspberry. Introduced and recommended by the New York Experiment Station. Berries are very large, firm. Medium purple in color. Tasty and excellent quality. Plants are very vigorous, hardy and productive. Sodus is resistant to drought and yields a good crop every year. Ripens shortly after Latham. 1-yr., No. 1 plants: 5 for \$1.15; 10 for \$1.95; 25 for \$3.25; 50 for \$5.50; 100 for \$9.00; 250 for \$20.00; 500 for \$35.00.

Giant Victoria Rhubarb

Easy to grow—practically takes care of itself once established. Giant Victoria red variety. Stalks extra large.

Gem Everbearing

Gem is a money-making everbearer. Its berries are solid, and carry well to market. They are well shaped, well colored and deliciously flavored. The plants are healthy, vigorous, drought resistant, productive. Does not require matting. Grow in narrow rows for best results. Gem produces a fine crop of money-making berries in the fall, berries that will sell well at fancy prices—and then again in the spring. More and more Gem is being planted for profit.

Everything Postpaid.

Minnesota Everbearing

No. 1166

Produced at the Minnesota Agricultural Experimental Station Minnesota 1166 has hardiness, and fruitfulness, under adverse conditions that most varieties do not have. Many believe it will soon replace the ordinary varieties, because it really is superior. Berries are large, well-shaped, dark red clear through, and have marvelous keeping and shipping qualities. Do not rot in the box or dry up.

Brunes Marvel Everbearing Berry

A Miracle has been wrought in this new **EVERBEARING STRAWBERRY**, for it has all qualities tied up in one berry. Folks who cannot eat other varieties of Strawberries **you can eat this one, no acid, and about all sugar.** This variety will not cause a rash like others do on some folks. So sweet no sugar is needed, mild and smooth, seeds are so small they're hardly noticed; berries of bright red. Bears 60 days after set, and is still at it when it commences snow; bears best in September and October.

Boysenberries Big-Juicy-Delicious Thornless Boysenberry

This is the Boysenberry that is so widely advertised in garden magazines. The thornless type. Huge maroon-red berry in giant clusters that often measure 1½ to 2 inches long and almost as wide. Strong growing vines. Flavor is a delightful blend of the best Loganberry, Raspberry, Blackberry, Dewberry flavors. Hardier and better than Dew berries and larger than the largest Blackberries. Delicious to eat fresh, without sugar, or canned or made into jelly, jam and juice. Make super-delicious pies. Set the bushes 4 by 7 feet apart in the field and tie them to one wire, strung about 2½ to 3 feet from the ground. Prune severely every year.

Choice Blueberries

There is a big market for these delicious Blueberries; they make money from any type of acid soil. Grow in big clusters—3000 to 5000 quarts per acre—easy to harvest, thornless. Plants last a lifetime, give bigger yields every year. If your soil is sweet, use peat moss or partially rotted vegetable matter around the plants to create acid. The period of ripening covers several weeks; therefore harvesting can be done at leisure. Write U. S. Dept. of Agriculture, Washington, D. C., for free booklet on Blueberry culture.

Your choice of CABOT (early); RANCOCAS (midseason); RUBEL (late). Use two or more varieties to cross-pollinize for best results.

3 for \$3.50 — 5 for \$5.50 — 10 for \$10.00

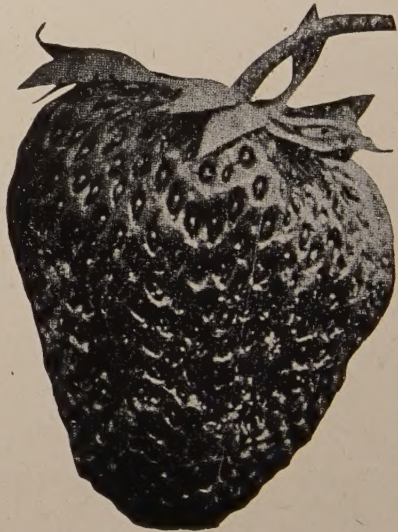

New Sioux Strawberry

A spring variety! Originated by Cheyenne Horticultural Station at Cheyenne, Wyo.

A cross between Fairfax and Rockey mountain wild strawberry. Sioux is winter hardy, drought tolerant and disease resistant and very strong vigorous plants. Has the fine flavor of the wild strawberry.

Tested in Kansas three years, found to be one of the most promising new berries seen in the past 25 years. Out yields standard varieties, quality and flavor excellent. Tested in Nebraska 5 years with the same results as found in Kansas. Appears adapted to Northern Great plains states. We have some nice plants to offer in this variety.

We ship to all states and supply several large nurseries. All our plants are doubly inspected by the state and fully guaranteed in every way. All prices include postage.

The Dollar Nursery

Bloomfield, Iowa

20th CENTURY - The SENSATIONAL NEW EVERBEARING STRAWBERRY

20th Century is no experiment, it has proved a success under various conditions of soil and climate. It is the most persistent plant to produce fruit, ever seen in our 29 yrs. of growing strawberries.

It has been known to produce up to \$6000.00 per Acre in fruit the first year planted, and one planting is good for 2 or 3 years.

The ideal berry for the home gardener or the market grower, with all the good points, to be desired in the perfect berry. It is mammoth in size, delicious in flavor, very sweet, and a producer that is marvelous.

20th Century is the result of the carefully planned, scientific crossing of Rockhill and Supreme. It has the quality of the Rockhill, but many times as productive. And it has all the good points of Supreme, but none of its faults.

A delight to the home gardener. Abundance of berries of the highest quality and a constant supply, the whole growing season. And that isn't all. There is a pleasure in growing your own that is rarely equaled.

Probably the best Everbearing ever introduced. A trial will be convincing.

100 for \$7.25

25 for \$2.50; 50 for \$4.25; 250 for \$14.50

500 for \$22.50

All prices prepaid.

INDIAN SUMMER

Giant Red Everbearer

The best everbearing red Raspberry. Earliest to ripen; bears a full crop in June and an immense crop in the fall. A sensation because of its size, flavor, and unusual beauty. Wonderful keeping qualities. Berries are glossy red, conical in shape, and of extra large size. The greatest all-purpose Raspberry. The fall crops when Raspberries are scarce and therefore highly priced are heavier than the earlier ones.
